Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on _____.
 2a) This action is **FINAL**. 2b) This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 21-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 21 is not clearly understood because the phrases "in particular, one-piece storage plate" and "in particular a push button" can be limitations or examples. The phrases have been read as examples. Similar issues regarding phrases that use 'in particular' exist in claims 23, 25, 39, 31, 33, and 39.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 21-23, 26, 29-31, 34, 37, and 38 are rejected under 35 U.S.C. 102(b) as being anticipated by DE 4013158.

DE 4013158 discloses a rear parcel shelf (10) with a fixing device that retains the parcel shelf in a vehicle, as disclosed in the abstract and shown in Figures 1 and 3. The parcel shelf forms a storage surface as broadly claimed in that objects can be placed on top of the shelf. An actuating element (13) releases the connection between the vehicle and the parcel shelf.

A detent connection retains the storage surface and is formed by a detent spring (15) which

is connected to a part (17) being secured to the vehicle, as shown in Figure 3. A detent element (24) is connected to the storage surface, as shown in Figure 3. The actuating element (13) includes a releasing device (31) that releases the detent connection, as shown in Figure 3. The releasing device is formed to penetrate into and expand a clearance between the detent spring (15) and the detent element (24) when the detent connection is released, as shown in Figure 3. In reference to claims 22 and 30, element (26) meets the limitations for the recessed grip lower part in that it is arranged at the lower side of the storage plate and forms a recessed grip with the storage plate that is accessible when the actuating element is actuated. In reference to claims 23 and 31, the releasing device (31) is a component of a push button lower part of the actuating device (13) and includes a guide element (28), as shown in Figure 3. The guide element is fixed in a guide contour, the vertical walls adjacent to the lead lines of reference numbers (28,29) as shown in Figure 3, associated with the storage plate and connected with this in a one-piece manner. In reference to claims 26 and 34, the releasing device (31) is designed as a wedge which is slanted at the free end, as shown in Figure 3. The releasing device (31) is situated under the push button (13) perpendicular to a plane defined by the storage plate, as shown in Figure 3. In reference to claims 37 and 38, the vehicle has a rear parcel shelf according to claim 21 and the fixing device according to claim 29.

Allowable Subject Matter

5. Claims 24, 25, 27, 28, 32, 33, 35, 36, 39, and 40 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
